Avoiding Retaliation Claims

Disciplining employees is becoming more and more difficult and scary for employers. Sarah Pillen states, “In today’s legal climate, employers are often frustrated by a perceived inability to discipline an employee when he or she has recently engaged in a protected activity. However, this recent case serves as a reminder that when performance issues are confronted **consistently** and disciplinary actions are **well-documented**, courts are much more likely to rule in favor of the employer.” <http://www.remboltludtke.com/pdf/00332139.pdf>

Worker Classification Scrutinized by the Government

Jackson Lewis has a new handbook out that explains in detail the difference between an employee and an independent worker. The handbook goes into detail on how this affects the paying of employer taxes and how it affects the FLSA laws in the area of overtime. Both of these areas are a definite cost to the employer.
